TO WHOM IT MAY CONCERN

The project for "Construction of Grade Separator at crossing of Road No. 56 & G. T. Road near Apsara Border, Delhi-110 095" has been awarded to M/s. AFCONS INFRASTRUCTURE LIMITED, 16 Shah Industrial Estate, Mumbai 400053 in September 2008. Accordingly, the project expected to be completed in June 2010. The agency have been doing excellent job in establishing and maintaining safety, health and environment including traffic diversion through out the period.

The project is in progress on one of the busiest roads called "Crossing Roads of Road No. 56 & G. T. Road" near Apsara Border (U. P. & Delhi). At this crossing maximum vehicles are crossing day & night and it was a tough task for the traffic control and to execute the work safely due to regular heavy traffics, road accident prone area and adverse situation for the traffic control, it was a very difficult task for heavy movements of the Cranes, Transit Mixer, Rigs, Dumpers and materials shifting on the road, surrounding gathering of public, barricading and segregation and working safely without any accident, which was only possible due to well maintained safety standard at the working area of the project.

It is observed that the agency have been taking continuous efforts to control the traffic and adopt safe work procedure to maintain Health, Safety, and Environment aspects at project site. During this period, since September 2008 to till date (approx. 15,00,000) man hours worked without accident.

It is therefore we appreciate M/s. AFCONS Safety Management for continuously following all safety norms.

Er. Kailash Narayan
Executive Engineer
