**AMEL C3 Contract for Design & Construction of Cut and Cover Tunnel including
Switchover Ramps and Underground Station at NH8**

Two Million Man Hours Worked without a Recordable Injury

Dear Sir,

As you are aware your AMEL C3 Contract package was awarded on 27th September 2007.

Since mobilisation in 2007 through to 31st January 2009 you have achieved over two million man hours (2,000,980) worked without a recordable or lost time injury. This effort is most commendable

We congratulate you on achieving this milestone and would like to thank all concerned for the hard work and diligence in achieving this result.

As we now push on through to completion of the civil works I would ask you to maintain the same level of focus and commitment to safety and to ensure that you complete the project with no lost time injury or dangerous occurrence on AMEL C3 work sites.

This renewed focus will be important as the interfaces with the Concessionaire's works will increase. You must be especially vigilant during this next project phase and ensure accuracy and focus in your safety planning and safe control works at the interface.

I hope to be congratulating you again on achieving the next milestone of 3 Million Man Hours worked without recordable injury.

Yours faithfully

H. Yoshikawa
Project Director
