Nagpur.

Kind Attn : Shri. A. K. Asthana, Project Manager

Sub : Appreciation letter for successful launching of PSC I Girders over Central Railway track of Khapri, Nagpur at Chainage 824/5-7 in a record time

Dear Shri. Asthana,

I am extremely happy to acknowledge you and your teams' committed and dedicated effort in successful launching of all 8 nos. PSC I Girders, weighing about 80 tons each, for this 6 lane Rail Over Bridge (ROB), over existing railway route, which is one of the busiest routes in India.

I must appreciate that this launching has been done in record time of 8 days with a minimum blockage (less than half an hour per girder) to the running rail traffic against the railway approved schedule of mega blockage of more than 3 hours rail traffic for more than 51 days schedule. It is indeed a record in ROB construction in India for such a fast and speedy launching over running tracks for 6 land ROB.

This is also a moment to appreciate your advance and technological and equipment deployment and also well planned and co-ordinated effort taken by you under extremely adverse weather conditions. Also the safety measures taken by you, during the whole of this operation, were truly world class.

I once again congratulate you for your dedicated and timely efforts for such mega works completion and wish you and your team to put all out efforts to complete the entire work in such spirit and safety.

I wish you, your team and your company all the best. I am sure in future you will create many more such milestones.

Thanking you,

Yours faithfully,

27.7.09
