ONGC offers \$290 million contract to Afcons Infra team

PUBLIC sector oil explorer, ONGC awarded \$290 million contract to develop HRD process platform to a consortium led by Afcons Infrastruture with Technip KT India and THHE Malaysia.

According to an official statement from Afcons Infrastructure, the scope of the work includes engineering, procurement, installation and commissioning of the project, which is expected to be com-

pleted within 28 months.

The process platform is having well fluid processing capacity of 55,000 barrels and gas compression of 3.2 million cubic meters per day, the release said.

The major fabrication works would be undertaken at PTSE yard in Vietnam and NPCC yard in Abu Dhabi. Kawasaki Heavy Industries (KHI), Japan are the suppliers of gas compression system, it added.
