

Delhi – Meerut RapidX: Afcons Casts Package 6's Final Segment

22 Oct 2023 · by [TMRG](#) · in [Delhi NCR RRTS](#) · [2 Comments](#)

Prior to the [inauguration](#) of the 17 km Priority Corridor (Sahibabad – Duhai), Afcons Infrastructure celebrated casting their final segment for Package 6 of the 82.15 km [Delhi – Meerut RapidX \(RRTS\)](#) project's viaduct.

9.3 km long Package 6 within Delhi connects Sarai Kale Khan RapidX Station – New Ashok Nagar Ramp with a [1.35 km bridge](#) over the Yamuna River, just north of DND Flyway.

Afcons' team first performed a small puja and then poured concrete for the final 10.5m wide segment at their Gazipur Casting Yard ([view on Google Maps](#)). By back of the hand calculations, I reckon they've cast around 2200 box segments for this section's viaduct.

National Capital Region Transport Corporation (NCRTC) had [awarded](#) Afcons with Package 6's Rs. 1061 crore construction contract in October 2020 with a 30 month deadline.

When this segment is launched in the coming months, Package 6 will become the 4th of the line's 6 elevated packages to complete launching activities after KEC-CCECC JV's [Package 1](#), APCO-CRFG's [Package 2](#) (both are operational) and L&T's [Package 3 Lot-1](#) (Duhai – Modinagar North).

Back in September, Afcons launched 13 segments for the RapidX line's viaduct over the [Delhi Metro Blue Line's](#) viaduct at New Ashok Nagar – [see details & pics](#).
